## About Me

Junior Java developer with experience in testing/debugging and creating both developer and end user interfaces. I am a motivated self learner seeking a position where I can utilize my current skill set, as well as grow as a developer.

## Education

**The Iron Yard** - Certificate in Back End Engineering  
*Orlando, September 2016 - December 2016*

- An immersive, 12-week course in Java
- Created projects using Java, Spring, Postgres, SwaggerUI

**Eckerd College**- Bachelors Degree in Biblical Scholarship/Linguistics.

## Employment

### Alex's Italian Pastries

*Pastry Chef*

*Orlando FL, June 2010- March 2011*

- Was responsible for prepping and baking of pastries and breads.
- Keeping up with inventory and ordering.
- Managed a staff of three, which included scheduling and payroll.

### Mulligans Pub

*Various*

*Celebration FL March 2011 - Sept 2016*

- Hired as a Chef and was responsible for the total maintenance of the kitchen. This included both prepping and lunch and dinner service. As well as ordering inventory and keeping the items in stock.
- Eventually was given more responsibilities including Bartending and office work.
- Expanded the restaurants ability to host and cater various engagements.
